

Meetings on Gravitational concepts

A. Einstein, I. Newton

General

Motivation

It's boring at home.

Protocol: January 01, 1901

Brainstorming

- Classical mechanics is nice, but Albert is allergic to apples.
- Isaac aims to prove himself wrong

Test concepts

1. Classical mechanics
2. Special Relativity
3. Unified Theory (*later*)

Sketches

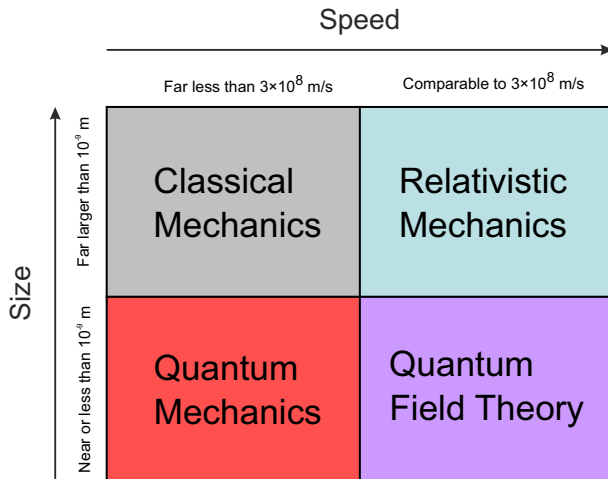

Figure 1: Some sketch for a nice figure.

Tasks

- Albert: read Isaac's work
- Isaac: read Albert's work

Protocol: February 28, 1903

Status

- the new beer flavour in Joe's pub does not taste well
- Albert found a major flaw in Isaac's theory

Tasks

- Albert: calculate Mercury orbit
- Issac: bring some apples
